

PULLMAX

NEWSLETTER AUGUST 2010

OPEN DAY AT PULLMAX!

Pullmax Limited is happy to invite you to our first Open House at our Development Facility near our Head Office in Coventry. The Open House will span over two days, Wednesday 21st September and Thursday 22nd September 2010. We hope that you will come and join us for a demonstration of the capabilities of our Pullmax 720.

There will be a morning and afternoon session, but everyone is invited to stay for the entire day. Lunch will be provided for those who will be in attendance between 12 and 1pm. Within the morning session there will be two demonstrations and also the opportunity to attend a Wilson Tool seminar. This will then be repeated in the afternoon.

Our Pullmax 720 is driven by Radan and tooled with Wilson Tooling. The machine can be seen performing up to 75mm high bends, finishing fully formed parts in one operation and showing many wheel tool operations. The unsurpassed speed and unique carousel can be seen at close range. Our experts from Sweden and the UK will be on hand for in-depth technical explanations.

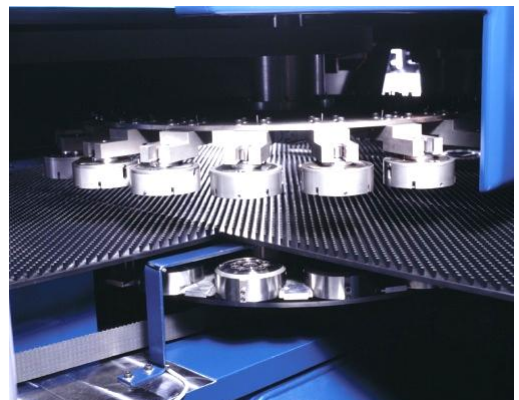

Representatives from Pullmax, Wilson Tool and Radan will be on hand all day to answer any questions you may have.

If you would like to join us on either the 21st or 22nd September please fill out the enclosed Open Day Form and either post, fax or email it back to us by 10th September 2010 and we will confirm your attendance by email.

We look forward to meeting you at the event.

Please find directions to our Development Facility overleaf.

JOIN THE PULLMAX RAFFLE!

1st Prize - £350 discount on your next Service Contract

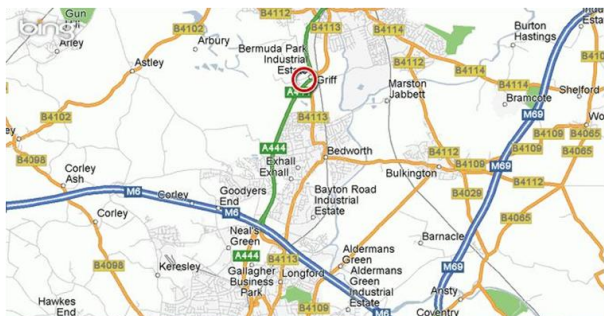

2nd Prize – A further 5% discount on spare parts in October

3rd Prize – Free consumables on your next service
